CompTIA Courses and Prices

PC Engineering Course

- Duration: 3 Months/60 hours

- Content:

- A+ & Hardware Essentials (20 hours)

- N+ (20 hours)

- Cloud or Project (20 hours)

- Price: R32,700 / $1950 / €1950 / £1800

- Payment per 20 hours: R10,900 / $650 / €650 / £600

- Additional Costs: 4 International exams not included

IT Fundamentals (ITF+) Course

- Duration: 20 hours

- Content:

- IT Concepts & Terminology

- Infrastructure

- Applications & Software

- Software Development

- Database Fundamentals

- Security

- Price: R12,900 / $850 / €720

- Additional Costs: 1 International exam not included

A+ (Hardware) Course

- Duration: 20 hours

- Content:

- Motherboard, Processors, and Memory

- Storage Devices & Power Supplies

- Peripherals, Expansions, Display Devices

- Installing & Configuring Printers

- Operating System Basics & System Administration

- Windows Security, Mobile Devices

- Troubleshooting Theory, OS's & Security

- Hardware & Network Troubleshooting

- Price: R12,900 / $850 / €720

- Additional Costs: 2 International exams not included

N+ (Networking) Course

- - Duration: 20 hours

- - Content:

- - Configuration, Management & Troubleshooting of Network Devices

- - Network Protocols & Products for LANS, WANS, Wireless Networks

- - TCP/IP Addressing Protocols

- - Network Security Threats & Countermeasures

- - Network Cabling Installation & Configuration

- - Price: R12,900 / $850 / €720

- - Additional Costs: 1 International exam not included

Security+ Course

- - Duration: 20 hours

- - Content:

- - System Threats & Current Landscape

- - Malware, Cryptographic, Wireless & Service Attacks

- - Penetration Testing & Vulnerability Scanning

- - Security Assessment Using Software Tools

- - Mobile Devices Security, Access Management Controls

- - Cloud, Virtualization, Resiliency Concepts

- - Incident Response, Forensics, Disaster Recovery, Security Controls

- - Price: R12,900 / $850 / €720

- - Additional Costs: 1 International exam not included

- - Prerequisites: A+, N+

-

CySA+ (Cybersecurity Analyst) Course

- Duration: 2 months/40 hours
- Content:
- Information Security Risk Assessment
- Networking & Security Basics
- Diagnosing, Resolving & Documenting Security Issues
- Cybersecurity Threats Analysis
- Penetration Testing & Implementation
- Security & Event Logs Analysis
- Incident Investigation & Response
- Price: R28,800 / $1740 / €1440
- Payment per 20 hours: R14,400 / $870 / €720
- Additional Costs: 1 International exam not included (CyberSecurity Analyst Certification)
- Prerequisites: ITF+, A+, N+, Security+

Cloud+ Course

- - Duration: 20 hours
- - Content:
- - Cloud Technologies Basics
- - Cloud Solutions Deployment
- - Cloud Infrastructure Troubleshooting
- - CPU and Memory Sizing for Cloud Deployments
- - Security Issues in Cloud
- - Network Issues and Automation
- - Price: R12,900 / $850 / €720
- - Additional Costs: 1 International exam not included

Server+ Course

- - Duration: 20 hours

- - Content:

- - System Hardware and Software

- - Server Administration and Architecture

- - Network Essentials

- - IT Environment, Storage, Disaster Recovery, Virtualization

- - Network and Storage Troubleshooting

- - Price: R12,900 / $850 / €720

- - Additional Costs: 1 International exam not included

Linux+ Course

- - Duration: 20 hours

- - Content:

- - Introduction to Linux & Command Line

- - Managing Users, Groups, File Access & Permissions

- - Disk Partitions & File Systems

- - Logical Volumes & Filesystem Hierarchy

- - Editing Files with vi/vim

- - Managing & Configuring Hardware, TCP/IP & Networking

- - Price: R12,900 / $850 / €720

- - Additional Costs: 1 International exam not included
